## Bring a Community Garden to South Tabor Neighborhood!

By signing, I state that I live in South Tabor Neighborhood. Along with my neighbors, I want a community garden in our neighborhood because it is good for people, the environment, and brings us together. I request that all government bodies including the Portland Parks and School departments cooperate with our neighborhood association to bring a community garden to South Tabor without delay. We want and need the community this public garden will bring to the neighborhood.
